Help us improve your experience at

Santa Clara University School of Law

Take the Law School Survey of Student Engagement (LSSSE)

1 Results inform decisions that benefit students

We use the results to improve your experience and quality of education.

2 Your responses are compared with other law schools

Close to 80 law schools are participating in LSSSE this year. Through your participation we gain meaningful insights about how your educational experience compares with other law schools.

3 The more students respond, the more valuable the data

It's important to get as many responses as possible so the data we receive from LSSSE is representative of the entire student body.

About the LSSSE Survey

Conducted by an independent research center. Responses are anonymous to the law school.

- The survey is online and takes about 15 minutes to complete.
- The study is broad in nature; it includes a wide variety of topics related to student classroom experience, faculty interaction, use and satisfaction with student services, academic and professional growth, and your overall assessment of the law school.
- LSSSE is a national survey based on a solid foundation of research on effective educational practices. It's a meaningful measure of how law students spend their time and what they gain from law school.
- Since 2004, 191 law schools have participated and over 294,000 students have taken the survey.
