

2024 Judge Ingram Symposium

Speaker Bios

The Program Panelists are:

At Berkeley Law, Professor **Colleen Chien** teaches, mentors students, and conducts cross-disciplinary research on innovation, intellectual property, artificial intelligence, and the criminal justice system, with a focus on how technology, data, and innovation can be harnessed to achieve their potential for social benefit. Chien is also a Faculty Co-Director of the Berkeley Center for Law and Technology, and for the past decade, has also had the honor of working part-time as a public servant, in the Obama White House as a Senior Advisor, Intellectual Property and Innovation and more recently on the Transition Team and senior counselor to the Department of Commerce and Marian Coak distinguished scholar at the United States Patent and Trademark Office.

Colleen is known for her in-depth empirical studies of patent litigation, patent-assertion entities (PAEs) (a term that she coined), the secondary market for patents, and, in the criminal justice realm, on the “second chance” gap between those eligible for and receiving relief from the criminal justice system. She founded and directs two grant-funded research initiatives: the Innovator Diversity Pilots Initiative (diversitypilots.org), which develops rigorous evidence to boost inclusion in innovation, and the Paper Prisons Initiative (paperprisons.org), which conducts research to address and advance economic and racial justice through empirical study of the second chance gap in expungement, drivers license suspensions policies, and the California Racial Justice Act. Prior to joining Berkeley, Chien was Professor of Law at Santa Clara University School of Law for a decade and a half; she also was a Justin D’Atri Visiting Professor of Law at Columbia University Law School and visiting professor at University of Chicago School of Law.

Colleen is among the top 20-cited intellectual property and cyberlaw scholars in the US, and her work has been featured in numerous academic and mainstream venues. Chien is an awardee of the prestigious American Law Institute’s Early Career Medal; she also has received the Intellectual Property Vanguard Award, and has been named Eric Yamamoto Emerging Scholar, NLJ Tech Trailblazer, a Tech Law Leader, one of Silicon Valley’s “Women of Influence,” and one of the 50 Most Influential People in Intellectual Property in the world. Prior to entering academia, Chien did stints as an investigative journalist, strategy consultant, and practicing lawyer (as an associate, then special counsel at Fenwick & West LLP in San Francisco). She graduated from Stanford (Engineering) and Berkeley Law Schools and is a proud Oakland resident along with her husband and their two sons.

Olga V. Mack, Fellow at CodeX, the Stanford Center for Legal Informatics, and a Generative AI Editor at law.MIT. She is an award-winning general counsel, operations specialist, and tech

startup advisor who encourages lawyers to embrace disruptive technologies that make law more functional and accessible. A three-time TEDx presenter with an exceptional blend of legal, technological, and business expertise, Olga is one of today's top speakers and thought leaders. Find her latest insights at Above the Law, Forbes, Bloomberg Law, ACC Docket, law.MIT Computational Law Report, Newsweek, Venture Beat, and her podcast, Notes to My (Legal) Self. As a Berkeley Law lecturer and a fellow of the College of Law Practice Management, Olga is confident the law's future is secure in the hands of innovators. Olga's numerous awards include the Silicon Valley Women of Influence, ABA Women in Legal Tech, Make Your Mark, Corporate Counsel of the Year, and Women Leaders in Technology Law. In examining how disruptive technologies impact laws, society, business, and commerce, Olga authored [Blockchain Value: Transforming Business Models, Society, and Communities](#) and co-authored [Fundamentals of Smart Contract Security](#). She is working on her three books: Visual IQ for Lawyers (ABA 2024), The Rise of Product Lawyers: An Analytical Framework to Systematically Advise Your Clients Throughout the Product Lifecycle (Globe Law and Business 2024), and Legal Operations in the Age of AI and Data (Globe Law and Business 2024).

Stuart P. Meyer is a partner in Fenwick LLP. He is an electrical engineer turned patent lawyer and uses his technical background to provide strategic intellectual property counseling to clients, ranging from small startups to multinational public companies, throughout the lifecycle of their businesses. He also represents other prominent organizations in the technology space, such as the Massachusetts Institute of Technology, for which he served as counsel in litigation involving the so-called RSA encryption patent, considered to be fundamental to data privacy.

Stuart is a graduate of the Yale Law School and also earned a MS in Electrical Engineering from Princeton University and a BS in Electrical Engineering at Carnegie Mellon University. At Yale Law School, he served as Director of the Yale Law & Technology Association. He is admitted to practice in California, Vermont and the District of Columbia as well as the US Patent & Trademark Office.

Stuart co-chairs Fenwick's post-grant proceedings practice and is consistently recognized by *Chambers USA* as a top IP advocate. He handles a wide range of IP-related matters, including, among others, performing strategic IP planning and audits, establishing trade secrets and other IP policies on behalf of clients and representing companies in technology-based litigation.

In 2019, Stuart was recognized as one of the top 20 AI lawyers by the Daily Journal. He is co-author of *Responsible AI: A Global Policy Framework* (collecting expertise of AI experts from 16 countries on development and use of AI technology).

He also manages Fenwick's innovative, client-forward Vermont operations facility.

The Program Moderator is:

Jonathan Joannides, Associate, Fenwick LLP

Jonathan counsels on product and website design relating to privacy and data protection compliance and on strengthening a business's resilience to cyber threat actors. He also advises clients on matters involving regulatory compliance, intellectual property, commercial disputes, and corporate governance related to cybersecurity.

Jonathan's experience includes:

- Developing and implementing internal policies & procedures, training, and other GDPR/CCPA/Federal/State compliance documentation
- Responding to data subject requests and breach incidents
- Negotiating data processing addendums and other technology agreements
- M&A due diligence
- Litigating commercial and intellectual property disputes
- Product counseling

Jonathan has worked with clients in the Web3, financial services, consumer tech & e-commerce, defense & government, health & medical device, and AI & Machine Learning sectors, including on matters involving clinical trials, international data transfers, biometrics, AdTech, data analytics, blockchain and other innovative technologies. Jonathan has also been recognized as a Fenwick Pro Bono Champion in 2023 for his work with non-profits and underserved communities.

Prior to attending law school, Jonathan led as a Captain and infantry officer in the U.S. Marine Corps. During his 10 years of service, Jonathan served in a variety of billets, including leading rifle platoons in combat during Operation Iraqi Freedom and commanding a 150-Marine rifle company performing security and training exercises in Southeast Asia, as well as conducting counter-piracy operations in Somalia, advising U.S. diplomatic posts in Bahrain and Pakistan on security protocols, and managing complex military projects and programs as a staff officer.

Jonathan is a member of the International Association of Privacy Professionals, and has received the CIPP/US and CIPP/E certification. He is also on the Executive Committee of The Honorable William A. Ingram Inn Chapter of the American Inn of Court.

Active in the community, Jonathan currently serves as the Board Chair of HomeFirst, a 501(c)(3) non-profit corporation and the largest service provider in Santa Clara County committed to ending homelessness with operational budget of \$50 Million, and serves on the Wine Country Marines board, a 501(c)(3) nonprofit corporation that supports the transition of service members and their family members to civilian life and provides support for the recovery and assistance during times of crisis, injury, or death.
