What is Privacy?

What is Privacy?

One possible definition:

“Informational/data privacy is the ability of a person or a group to control the disclosure of information about them (i.e. what information, to whom, when, under what circumstances, etc.). There is no such thing as perfect privacy; it is always imperfect and always important”

California Constitution

ARTICLE 1 DECLARATION OF RIGHTS

§1. All people are by nature free and independent and have inalienable rights. Among these are enjoying and defending life and liberty, acquiring, possessing, and protecting property, and pursuing and obtaining safety, happiness, **and privacy**
